

# EAGLE CANYON TROPHY TROUT LAKES

Welcome to the fly-fishing-only world of Eagle Canyon Trophy Trout Lakes. Our exclusive waters offer unsurpassed private angling for rainbows that consistently rank as California's largest. Approximately 20 miles from Red Bluff, California, our spring-fed stillwaters are located in the foothills west of Lassen National Park. Four to fifteen pound rainbows inhabit these intimate ponds and flourish in the fertile 55-degree habitat. It's a perfect home for trophy trout. Our season is from January through mid-April.
